

### **Declaration of consent for the completion of SARS-CoV-2 self-tests at daycare centres/children's daycare**

As the result of binding agreements between the supporting authority, the daycare centre and/or the childminder, children who are already one year old and who attend a day nursery and/or children's daycare may be tested for the SARS-CoV-2 virus once to twice a week by means of a PoC antigen test or an appropriate self-test. Children should as a rule be tested at home.

Where testing takes place as an exception at the daycare centre/children's daycare **in the presence of the parents/those with care and custody of the child**, personal data concerning you/your child, such as their name, date of birth und health data (positive test, negative test), are processed. The data are processed to permit you/your child to be clearly identified.

This declaration of consent may be withdrawn at any time with effect for the future (by post, email or fax addressed to the daycare centre/children's daycare).

<b>Information about the daycare centre/children's daycare</b>
